National Convention which is to assemble at Clin-cimal on the 14th day of June, 1876, and to mem-late five Presidential Electors.

The committee is of opinion that it will be im-practiculate to avoid holding two Conventions, and that the purposes of this Convention are not of sufficient importance to justify calling for large sounty delegations, and therefore suggests that each ountry will sum five delegates to be appointed by the County Executive Committee, or by Oscaty Convention, as such committee may dean expedient. Creat stress is fail upon the failure of the Vienna Exposition by reason of the inordinate greed of the railways, hotels, boarding house keepers, and all who had anything to sell or rent which the visitors needed. Before the first month of the Exhibition was over they saw, their mistake and reduced the rates, but it was too late then, the public had grown wrathy and staid away. The Exposition was a financial failure, there was a large deficit in its receipts as compared with its expenses, which the government had to make up, and many of the landlords and shopand many of the landlords and shopkeepers were rained. It would be indeed keepers were rained. At would be indeed a serious misfortune if any such mistake should mar the opening month of the Centennial. On the ground that she is a woman, other hand, pin money is scarce among the people, and unless very fair inducements are offered the great majority of the people will stay at home and content the mesters with reading descriptions of the Centennial in the newspapers.

This is the ladies' leap-year conuntum. When will the alphabet contain only twenty-five letters? And after they have given it up, the blushing reply is, when U and I are one.

mass of non-machine voters of the party, these machine politicians, who have for many years been silent amid the corruptions and dishonesty around them, who have opposed the exposure of frauds, and applauded, sustained, and officially indured the notoriously goilty, have been able to get up delegations to Cincinnati in their favor, with the determination to force upon the party one of their own class for President. One of these candidates recently declared that Bristow had

The whole electoral vote of the United States at the next election including Colorada, will be 389, of which 185 will be amajority. The following sighteen States have the vote assigned them:

With regard to the length of sleep, Dr. Terrier holds that the heart is not in a state of constant but of rhythmical activity, a term of action being followed by a pause of rest, during which the heart is to all intents and purposes asleep. If fact, if the pauses of the heart are all summed up, it will be found that it rests or sleeps eight hours out of the twenty-four, the sleep being in the proportion of one-third as compared with the hours of action or work. Eight hours are consequently sufficient for the adult.

A DEMAND is made on the railroads for cheaper Centennial rates than they have yet announced. Their reduction of 25 per cent is not considered sufficient in view of the hard times, and in view of the fact that it is their custom to give half.

There are but two escapes from defeat:

The the Cincinnati Convention, the delegates from eighteen States we have named, and from the eight territories, including the District of Columbia, which have no electoral votes, will have 153 votes in the nominantion of a candidate to the convention, and with the Conkling-machine vote of New York, can positively nominate a candidate in defiance of the vote of all the certain Republican States of the country. To those professional Republicans who assume and act as if they believed that the only question pending to be determined by the nominations at Cincinnati is to which of the candidates shall be awarded the Presidency, we suggest that the real thing to be decided by the choice of candidates is whether the next President shall be a Republican or a Democrat.

The revelations beginning with the shocking exposures of the Credit-Mobilier corruptions in 1868, followed as they handle the machine politicians who have opprated the machinery of the government and politics, ending in the criminal conviction of revenue thereas, the impeachment of Belknap, the smirching of other reputations, and the disgrace of Babcock, have produced upon the public mind a deep disgust for machine politicis, and for the politicians who have a consent. The result was a vast political machine, spread all over the State, worked by a man at Washington, and capable of producing a convention obedient to his personal command.
